

Programme - 27th October page 1/4

time	min	lecture	speaker	session
9:00	30	Starting quiz: Where am I now?	Vita Zidere	Overview
9:30	30	The normal 2 nd trimester fetal echocardiography	John Simpson	
10:00	20	First trimester fetal echocardiography	Jader Cruz	
10:20	40	coffee break		
11:00	30	Ventricular septal defects (VSD) and atrio-ventricular septal defects (AVSD)	Vita Zidere	4 chamber abnormalities
11:30	15	Hypoplastic left heart (HLH)	Trisha Vigneswaran	
11:45	15	Tricuspid atresia and Pulmonary atresia with intact septum	Patricia Caldas	
12:00	30	HLHS: How do I approach? from prenatal diagnosis to perinatal management	Ana Teixeira	Case based discussion
	30	AVSD: How do I approach? from prenatal diagnosis to perinatal management	Ines Gomes	
13:00	60	lunch break		

Programme - 27th October page 2/4

time	min	lecture	speaker	session
14:00	90	Is array enough for cardiac abnormalities?		
		Heart as a manifestation of genetic diseases 1. Tumours 2. Noonan syndrome 3. Long QT syndrome	Sahar Mansour / Vita Zidere	Genetics and Heart
15:30	30	coffee break		
16:00	30	Congenitally corrected transposition of great arteries (CCTGA)	John Simpson	Rare but important: Case discussion
		Cardiac Isomerism	Patricia Caldas	
		Absent pulmonary valve syndrome	Ana Teixeira	
16:30	60	Interactive learning session	Vita Zidere / Alexandra Savis	Case based discussion
17:30		End of day 1		

Programme - 28th October page 3/4

time	min	lecture	speaker	session
9:00	45	Transposition of great arteries (TGA)	Trisha Vigneswaran	Understanding outflow tracts abnormalities
		Tetralogy of Fallot (ToF)		
		Common arterial trunk (CAT)		
9:45	15	Fetal arrhythmias	John Simpson	Arrhythmias
10:00	30	Does fetal MRI helps in cardiac abnormalities? Learning from case studies	Kuberan Pushparajah	New technologies
10:30	30	coffee break		
11:00	20	Aorta: coarctation (CoA) and interruption (IAA)	Vita Zidere	Understanding outflow tracts abnormalities
11:20	20	Vascular rings	Trisha Vigneswaran	
11:40	40	TGA: How do I approach? from prenatal diagnosis to perinatal management	Joana Miranda	Case based discussion
		CoA: How do I approach? from prenatal diagnosis to perinatal management	Ines Gomes	
		Fetal tachycardia: How do I approach? from prenatal diagnosis to perinatal management	John Simpson / Silvia Gomes	
		Vascular rings: How do I approach? from prenatal diagnosis to perinatal management	Joao Rato	
13:00		Lunch		

Programme - 28th October page 4/4

time	min	lecture	speaker	session
14:00	15	Assessing cardiac function	Joao Rato	New technologies
14:15	15	Cardiomyopathy: How do I approach? from prenatal diagnosis to perinatal management	John Simpson / Sahar Mansour	Case based discussion
14:30	30	Venous variants and anomalies 1. Systemic veins 2. Pulmonary veins	Vita Zidere Trisha Vigneswaran	
15:00	30	coffee break		
15:30	30	Ebstein anomaly / Tricuspid valve dysplasia	John Simpson	Rare but important: Case discussion
		Critical aortic stenosis: diagnosis and decision making	Joana Miranda	
16:00	60	Prize Quiz	All speakers	
17:00		End of Fetal Heart
